Eurodetec Portugal - Private Detectives, Private Investigators.

Who we are:

We have been a Private Detectives Agency in the market since 1992, with teams of professionals specializing in various areas of research, which, with the vast experience of our employees and using the best technology of the moment, solve the most complicated and difficult cases in the shortest time lapse.

Our research services are always carried out with the utmost rigor and discretion and the results obtained are reported to the client in serious, practical and detailed reports, always observing the highest level of confidentiality.

We have Solutions for:

- Personal Cases: Infidelity, Adultery, Surveillance, Localization of persons, vehicles and assets (movable and immovable). Investigation of suitability, Drug Addiction Investigation of addictive conduct. Computer research and Internet control (use screening, use of social networks, etc.).
- Business and Commercial Problems: Internal theft in companies, Information leakage, Surveillance, Internal and external control of employees, Location of debtors, Credit information of clients, investigation of suitability and background of employees and clients.
- Investigation of Insurance Claims (Individuals and Insurance Companies).

Special Services / Laboratories:

- Computer Research: Analysis of the forensic type to computers, tablets and mobile phones. Analysis and duplication of hard disks, memory cards and other computer media. File recovery (accidental deletion, virus, formatting, etc.).
- Laboratory research: DNA verification. Detection and analysis of body fluids. Proof of paternity and kinship, etc.

Services to Individuals:

Infidelity:

If ... You suspect that your wife, husband, girlfriend or boyfriend is being unfaithful to you, either being married or married and is in pre-divorce and needs information about what is going on, or additional information.

- We will provide a full surveillance service, both electronically and in close proximity (in the most absolute discretion), where we will investigate all the antecedents of the "involved" and collect all necessary evidence or evidence.

Note: Special situations require the use of special means, such as: Real-time GPS geolocation, laboratory analysis for the detection of body fluids, forensic analysis of computers, tablets, smartphones and mobile phones, and sometimes when circumstances require the use of "drones" for special surveillance.

Background Checks:

If ... You want to know all the background or past history of someone, or if you have doubts about any situation that has been reported as real or trustworthy and you think it is not but cannot prove it.

- We will elaborate for you a complete "profile" of that person, using for this purpose in addition to our own investigation, all data available in services such as: Criminal record, civil registry, commercial register, finance, social security, as well as in networks social and specific locations as may be required.

International Investigations:

If you need information or an investigation outside our area of action (Continental Portugal, Azores and Madeira).

- We, with the collaboration of more than a hundred Detectives Agency spread throughout the world to which we are associated, no matter what your case or wherever investigated, we will always be able to obtain all the information or investigation that you want, with reasonable fees, or in the rare event that we are not at all possible, we will present to you that you can provide this service.

- Computer Research: Analysis of the forensic type to computers, tablets and mobile phones. Analysis and duplication of hard disks, memory cards and other computer media. File recovery (accidental deletion, virus, formatting, etc.).

Ethics, Secrecy and Privacy:**Our Values:**

- Although we provide our clients with a high quality service, we will always respect our Code of Ethics and in no case will we violate the Laws existing both in Portugal and, in the case of International Investigations, the Laws of the countries where the services take place.
- For us all our customers are equally important regardless of the type or kind of service, research or research.
- In our investigations, which we always do with the utmost commitment and using the utmost secrecy and correctness, we always follow what we think is ethically more correct, regardless of the consequences and any external pressure, treating all those involved with dignity, respect and consideration

Professional References:

We are affiliated to the most prestigious institutions of the sector in the European Union and the U.S. which we highlight:

- APDPE - Asociacion Profesional de Detectives Privados de España (<http://www.apdpe.es>) headquartered in Madrid - Spain

- ECD - European Council of Detectives and Private Investigators (<http://www.eurodetectives.org>) based in Strasbourg - France

We are Recommended by:

- PIENGINE -Private Investigator Directory (<http://www.piengine.com>) U.S.A.
- IPD - International Private Investigator Directory (<http://private-investigators-directory.com>) U.S.A.

We are also professionally associated with more than one hundred Private Investigation Agencies around the world

Secrecy, Privacy and Security:

- After the award of the service, the customer will be assigned an internal service code, all information regarding both the customer and the contracted service being encrypted (encrypted).
- The Partial Reports (if necessary) and the Final Report will be, unless otherwise indicated by the client, always sent by e-mail in encrypted file and protected by password. In no case this type of data and information will be made available via telephone.
- For security reasons all communications by telephone (or mobile phone) without exception are checked by computer, and all calls originating from confidential, "barred" or anonymous numbers are automatically rejected.
- All data and information received, inquiries, customer data, images, internal communications and reports will be permanently deleted from our computer systems 48 hours after receipt of the Final Report by the customer.

Fees and Payments:

As all cases and types of research services are different, with different degrees of difficulty, duration and workloads, necessarily requiring the use of different human and technical resources (and taking place in different regions of the country, or even abroad) only after a thorough and rigorous analysis of the request for investigation, with all the necessary information about the case or service to be carried out, we may present a final value for our fees.
